

Worldwide Womb Blessing

Additional Female Archetype Meditations

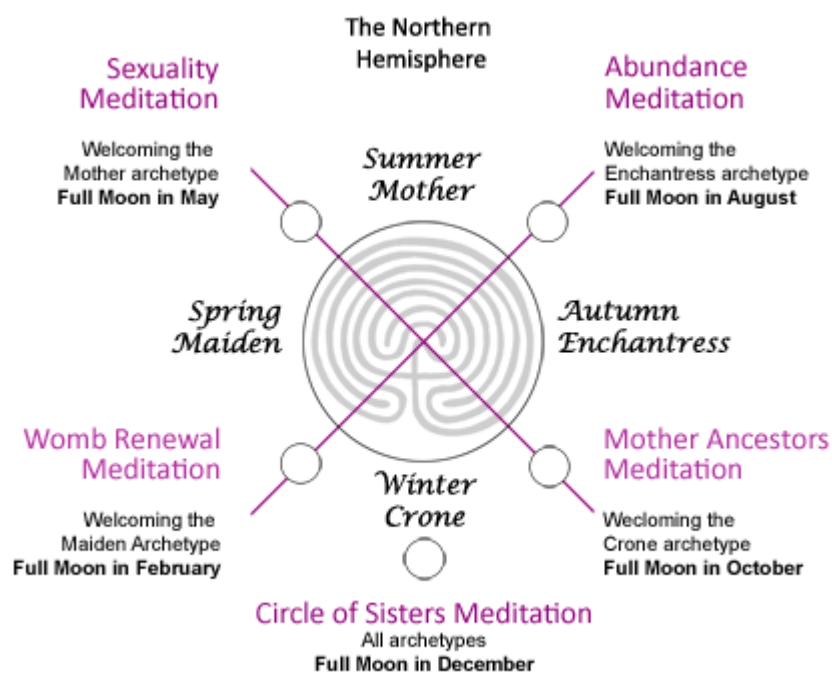

from Miranda Gray

Each Worldwide Womb Blessing has an 'additional meditation'. These meditations are designed to be used each year as **a personal journey through the four female archetypal energies**. The meditations help us to connect with each archetype within us as she awakens in the Earth and to restore and balance her energies that have been depleted or blocked. Each meditation resonates with the female archetypal energy linked to the four seasons of Mother Earth as she circles the sun.

Because we are working with the seasonal archetypes of the Earth it means that women in the northern and southern hemispheres do the **same meditations** but at **different times** of the year. This is because the seasons are opposite in the different hemispheres. The only exception is the meditation for the December Worldwide Womb Blessing which is the same meditation for both north and south hemispheres.

Additional Female Archetypal Meditations for the Northern hemisphere:

Full Moon	Welcoming	Meditation
February	Spring Maiden	Womb Renewal
May	Summer Mother	Sexuality
August	Autumn Enchantress	Abundance
October	Winter Crone	Mother Ancestors
December	All archetypes	Circle of Sisters
